Good Afternoon Captain,

I will definitely have those for you tomorrow morning. The LAPD has really been a great partner of the Downtown Center BID and I cannot thank you enough. Your leadership has been extremely helpful and appreciated by my entire staff and Downtown in general.

Brian K. Raboin
Vice President of Operations

Good Afternoon Brian,

On prior occasion, we discussed our deployment of a WESTSIDE Detail to address transient issues outside of the SKID ROW area. If you provide me your top five business that we can provide extra attention regarding these type of issues, I'll get the information to the sergeant in charge of that unit, Sgt. Mark Hamer.

I've already spoken with the SKID ROW Unit supervision and they have deployed appropriately so we can address the blockage of doorways, egress/ingress areas, driveways of business's, tents, etc... With your help, I'd like to have those 5 businesses identified so we can begin our action plan.

We are developing a list of high priority locations from each BID outside of SKID ROW. This list of locations will be addressed each weekday, except Fridays by the WESTSIDE Detail.

Thank you,
